

Crisis Communication Services

Chorus Call is the leading supplier of mission critical voice communications systems for command and control applications involving military test, rocket launch, satellite control, and air sovereignty for US Government agencies and all branches of the US Military.

Did You Know?

Chorus Call is your one-stop shop for recordings, replays, transcriptions, translations, video room rentals, editing services and more.

When a crisis hits an institution, it is extremely important to reach out to key decision makers immediately. It often is the difference between crisis management and absolute disaster.

Chorus Call has developed Crisis Communication as a service that gives you peace of mind in critical circumstances, by providing you with a system to get in contact with the people you need to, instantly.

Crisis Communication Services

Live Crises Communication Conferences: Live conferences to quickly and easily reach out to a few key decision makers or thousands of employees.

Pre-recorded audio messages: Send pre-recorded alerts to warn your stakeholders.

Automated Emergency Hotline: An emergency alert system for stakeholders to instantly deliver recorded voice messages to administrators via a customizable emergency hotline

What is the Chorus Call Difference?

SUPERIOR CUSTOMER CARE

Chorus Call focuses on quality of service, customer care, and strong tech support to meet the needs of our customers. Chorus Call's Conference Specialists are college educated, highly trained individuals who are familiar with each client's unique requirements.

INNOVATIVE CONFERENCEING TOOLS

In addition to high quality conferencing and customer care, Chorus Call places much emphasis on developing customized and innovative conferencing tools for its valued customers. Chorus Call's Technology Development Team maintains a dedicated focus on addressing specific requests to enhance the Chorus Call conferencing experience.

LONG LASTING LOYALTY

Chorus Call's high-touch services are among the best in the industry, but you don't have to take our word for it. Our satisfied customers say it best.

SYNERGY WITH TECHNOLOGY

The Chorus Call headquarters are in the same building as Compunetix, a worldwide leader in the design and manufacture of multipoint conferencing bridges. Compunetix systems are successfully functioning in a number of critical conferencing environments, including government mission-oriented systems and commercial service bureau environments. With over one million ports installed in more than 30 countries, Compunetix has the industry's largest worldwide deployment of digital teleconferencing systems.

Trusted the World Over

Chorus Call provides world-class service on a global scale. With offices around the world, Chorus Call is always ready to assist.
