

Chorus Call Legal Solutions

...providing unique conferencing solutions for the Legal Industry.

Chorus Call Professional Services

Chorus Call services are designed for legal professionals. Some of our most popular services include:

- Chairperson Dial Out - Enable the conference host to dial out to meeting participants.
- Roll Call - Hear who is joined to the call in real time.
- ConductorWeb - View participants, record audio, lock the call, end the call and more from our easy-to-use host portal.
- Conference Recordings - Record any call in an instant. Call hosts later receive an email link to download the file.
- Post Conference Summary Reports - Automatically receive post-conference reports with caller ID information, length of connections and billing reference numbers.
- Operator Assisted Conferencing - Let our conference specialists set up your calls, partner meetings, interviews or dial-out to counsel and judge's chambers.

...and so much more. Ask about our other solutions!

IDEAL FOR:

- Witness preparation & testimony
- Interviews
- Partner/staff meetings
- Staff education
- Depositions
- Video conferencing

What is the Chorus Call Difference?

SUPERIOR CUSTOMER CARE

Chorus Call focuses on quality of service, customer care, and strong tech support to meet the needs of our customers. Chorus Call's Conference Specialists are college educated, highly trained individuals who are familiar with each client's unique requirements.

INNOVATIVE CONFERENCEING TOOLS

In addition to high quality conferencing and customer care, Chorus Call places much emphasis on developing customized and innovative conferencing tools for its valued customers. Chorus Call's Technology Development Team maintains a dedicated focus on addressing specific requests to enhance the Chorus Call conferencing experience.

LONG LASTING LOYALTY

Chorus Call's high-touch services are among the best in the industry, but you don't have to take our word for it. Our satisfied customers say it best.

SYNERGY WITH TECHNOLOGY

The Chorus Call headquarters are in the same building as Compunetix, a worldwide leader in the design and manufacture of multipoint conferencing bridges. Compunetix systems are successfully functioning in a number of critical conferencing environments, including government mission-oriented systems and commercial service bureau environments. With over one million ports installed in more than 30 countries, Compunetix has the industry's largest worldwide deployment of digital teleconferencing systems.

Trusted the World Over

Chorus Call provides world-class service on a global scale. With offices around the world, Chorus Call is always ready to assist.
