### Did You Know?

Chorus Call is your one-stop shop for recordings, replays, transcriptions, translations, video room rentals, editing services and more.

Chorus Call is the established leader at delivering high touch conferencing solutions for large scale participation. For over four decades we have worked with several large global institutions to flawlessly execute their corporate communications.

- Capacity to support thousands of participants
- Outbound invitations & registration confirmations
- Interactive tools like polling, q&a and surveys
- Webcast option available as an add-on
- Professionally managed by our expert team of moderators
- Mobile apps for convenient access
- End to end event management with equipment rental
- Site certification & post event editing

...and so much more!

to discover the solutions we can provide you.

## What is the Chorus Call Difference?

### SUPERIOR CUSTOMER CARE

Chorus Call focuses on quality of service, customer care, and strong tech support to meet the needs of our customers. Chorus Call's Conference Specialists are college educated, highly trained individuals who are familiar with each client's unique requirements.

### INNOVATIVE CONFERENCING TOOLS

In addition to high quality conferencing and customer care, Chorus Call places much emphasis on developing customized and innovative conferencing tools for its valued customers. Chorus Call's Technology Development Team maintains a dedicated focus on addressing specific requests to enhance the Chorus Call conferencing experience.

### LONG LASTING LOYALTY

Chorus Call's high-touch services are among the best in the industry, but you don't have to take our word for it. Our satisfied customers say it best.

### SYNERGY WITH TECHNOLOGY

The Chorus Call headquarters are in the same building as Compunetix, a worldwide leader in the design and manufacture of multipoint conferencing bridges. Compunetix systems are successfully functioning in a number of critical conferencing environments, including government mission-oriented systems and commercial service bureau environments. With over one million ports installed in more than 30 countries, Compunetix has the industry's largest worldwide deployment of digital teleconferencing systems.

### Trusted the World Over

Chorus Call provides world-class service on a global scale. With offices around the world, Chorus Call is always ready to assist.
