

# INVESTOR CALLS

## YOUR TIME TO SHINE!

When you're holding a conference call and inviting the investors and analysts you've worked so hard to attract, it's a big deal — it's an event — and you want everything to go as smoothly as possible.

Chorus Call is your one-stop provider for high quality communication events. Whether it's your **Quarterly Earnings Calls, Annual General Meeting, Investor Day** or a hastily planned **Special Announcement**, Chorus Call will expertly host your conference call and webcast.

Using Chorus Call's **View Q & A** interface **you will be in control throughout your event** while Chorus Call takes care of the technical details. You will see who is on the call and who wants to ask a question. You will have the option of re-arranging the order of the callers in the question queue and have a clear line of communication with your lead operator.

**The confidence you feel with the support from Chorus Call, will allow you to focus your attention on your message, your executive and your audience.**

# HIGH DEFINITION AUDIO

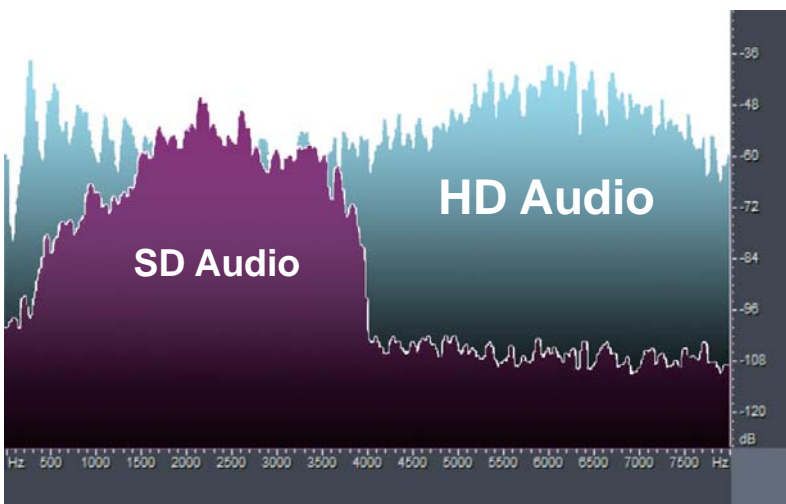

## AMPLIFY YOUR INVESTOR EVENTS WITH CLARITY BEYOND COMPARISON

Clarity is a crucial element in communicating with analysts and investors. Now Chorus Call can help you take your events to a new level with the latest in audio technology.

Not only will call participants using HD phones enjoy the better quality High Definition (HD) audio, but your webcast audience will benefit as well.

Like the jump from black and white to colour television, once you experience the rich acoustics of HD audio you won't be satisfied with anything else.

**Talk to your Chorus Call Account Representative to find out how to offer HD audio on your next call.**

## REDUCE AUDIO FATIGUE

With HD audio your audience will hear a much wider audio spectrum otherwise absent from narrow-band conferencing. This richer sound alleviates fatigue on the ear, allowing your analysts and investors to focus on your presentation instead of straining to hear what they may be missing.

## DECIPHER ACCENTS

In the global marketplace there are many types of voices — each possessing a unique pitch, strength and articulation. Using HD audio will benefit members of your audience when they are struggling to understand an accent that is different from their own.

## IMPROVE COMPREHENSION

Did she say “million” or “billion”? With HD audio conferencing the chances of being misquoted or misunderstood are reduced.
