

WEBCASTING

REACH MORE FOR LESS!

Sharp designs, cutting edge options, clear audio quality – we do our best to provide impressive platforms for an **unlimited audience** to receive your message.

Chorus Call streams at one of the highest rates in the industry which results in more natural audio without the metallic sound you'll hear in some other webcasts.

If you haven't tried webcasting your **Quarterly Call**, **Annual General Meeting** or **Investor Day**, rest assured it's a simple process from your standpoint. Your Chorus Call Account Executive will be pleased to provide you an overview and will see the project through to completion.

Stream your event live as it happens and/or have it recorded for a play-on-demand archive. Longer events, like Investor Days, can be presented in multiple segments and arranged for ease of access on an attractive landing webpage.

Check out the design examples and additional features on the pages that follow.

- ◆ Australia
